THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks pages 10-13, filed 5/26/2010, with respect to claims 1, 3-16, 18-23, 25-27, and 29-31 have been fully considered and are persuasive. The rejections of claims 1, 3-16, 18-23, 25-27, and 29 have been withdrawn.

Allowable Subject Matter

2. Claims 1 and 3-16, 18-23, and 25-27 are allowed.

The following is an examiner's statement of reasons for allowance: Upon further review after considering the Applicant's arguments, the prior art of record fails to fairly teach or suggest a method of identifying a plurality of key video frames in a sequence of image frames, each of said sequence of image frames containing a plurality of pixels, each of said plurality of pixels corresponding to a corresponding point of an area based on which said sequence of image frames are generated, said method comprising: using a processor to determine a rate of change of visual content of each current frame from a corresponding reference frame, each of said current frame and said reference frame being comprised in said sequence of image frames, wherein said rate of change represents a difference of a first value and a second value, said first value representing a change of visual content of a current frame compared to a first frame, said second value representing a change of visual content of said first frame compared to a second frame, wherein said second frame is a reference frame for said first frame and said first

Art Unit: 2621

frame is a reference frame for said current frame; and using the processor to select said current frame as a corresponding one of a set of potential video frames if said rate exceeds a corresponding first threshold value, wherein said plurality of key video frames are selected from said set of potential video frames, wherein said determining and said selecting are repeated for each of said sequence of image frames as said current frame to form said set of potential video frames, wherein each of the respective first frame and the respective second frame are different for different ones of the current frame in said sequence of image frames; wherein said determining comprises: determining a displacement magnitude of each moved pixel of said current frame compared to the position in said first frame and of said first frame compared to the position in said second frame; and computing a first representative magnitude of said displacement magnitude for said moved pixels of said current frame compared to said first frame, and a second representative magnitude of said displacement magnitude for said moved pixels of said first frame compared to said second frame, wherein said first value and said second value respectively equal said first representative magnitude and said second representative magnitude such that said rate is computed as a difference of said first representative magnitude and said second representative magnitude.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claim 29 is allowed.

The following is an examiner's statement of reasons for allowance: Upon further review after considering the Applicant's arguments, the prior art of record fails to fairly teach or suggest a method of identifying a plurality of key video frames in a sequence of image frames, each of said sequence of image frames containing a plurality of pixels, each of said plurality of pixels corresponding to a corresponding point of an area based on which said sequence of image frames are generated, said method comprising: using a processor to receive said sequence of frames of a same scene/area of interest according to a sequential order; using the processor to choose one of said sequence of image frames as a current frame, a first frame being before said current frame and a second frame being before said first frame according to said sequential order, said first frame being at a first relative position in relation to said first frame in said sequential order and said second frame being at a second relative position in relation to said first frame in said sequential order; using the processor to calculate a displacement magnitude difference of a first value and a second value, said first value representing a measure of a displacement magnitude change of visual content of said current frame compared to said first frame, and said second value representing a measure of a displacement magnitude change of visual content of said first frame compared to a second frame; using the processor to select said current frame as a corresponding one of said plurality of key video frames if said difference exceeds a first threshold value and first value exceeds a second threshold value; and using the processor to repeat said calculating and said selecting after choosing each of said sequence of image frames as

Art Unit: 2621

said current frame to form said plurality of key video frames, wherein each of the respective first frame and the respective second frame are different for different ones of the current frames, and are respectively determined based on the same first relative position and said second relative position in reference to the corresponding current frame.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claims 30 and 31 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to fairly teach or suggest a method of identifying a plurality of key video frames in a sequence of image frames comprising: receiving into a computer processor a plurality of image frames; calculating displacement values between pixels of interest in a first frame and a second frame, and displacement values between the pixels of interest in the second frame and a third frame; squaring the displacement values; averaging the squares of the displacement values; calculating a rate of change between the second frame and the third frame by determining an absolute value between the averaged squares of the displacement values for the second frame and third frame; and identifying a key video frame by comparing the averaged squares of the displacement values to a first threshold, and by comparing the rate of change to a second threshold..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
